REASONABLE PRICE FOR BREAD DEMAND

WASHINGTON, July 27.—In a communication to congressional conferees on the food bill the war emergency council of the baking industry today gave notice that the \$2 minimum for wheat proposed by the bill will permit of no reduction in the present price of bread.

The council urged that the price of wheat be left to the food administration and pointed out that while only 5 per cent of the population of the United States was interested in a high price for wheat, 95 per cent was interested in a reasonable price for bread.

The council sees no immediate prospect for reduction in bread prices.
